

Stars Beneath Us: Finding God in the Evolving Cosmos

By Paul Wallace

Fortress Press, U.S. Paperback. Book Condition: new. BRAND NEW, Stars Beneath Us: Finding God in the Evolving Cosmos, Paul Wallace, In ways both confident and gentle, Stars Beneath Us brilliantly shows God's presence in the ever-evolving cosmos. Relying on his upbringing as a Baptist, his doctoral work in experimental nuclear physics and gamma-ray astronomy, and his ordination to the gospel ministry in the Cooperative Baptist Fellowship, Paul Wallace weaves a book unlike any other in faith and science literature. Instead of engaging the debates of natural theology or proofs for the existence of God, this is a call to courage for those who fear a true encounter with the cosmos will distance them from God. With a winsome mix of compelling personal narrative and insightful biblical analysis, the author engages the enigmatic story of Job and reimagines the divine monologue of Job 38-41, rejecting standard God-as-bully readings of Job. Relying on a theology of openness to the world, Stars Beneath Us will inspire readers to engage with the natural world in new ways and find God, as it turns out, everywhere.
