Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from *The Genesis of a New England State (Connecticut)* In the new interest which has sprung up of late years in the institutional history of the United States, it is a little strange that the territorial forms and features, the bodies, of the States themselves are usually left so far out of account. It may be that this neglect has come from their comparative constancy of outline. It is easy to trace most of the internal workings of the State to the town system or its equivalents, and to accept them as a purely natural outgrowth. But it is just as easy to see that the external outline of New York, Illinois, or Texas has, from a very early period, been much the same as at present, and to accept it as artificial, as imposed on the State spirit by some superior power. And it must be confessed that this distinction holds good as a general rule. Each of our States has had, throughout its history, a remarkable uniformity of feature. There is comparatively little of that breaking up and reuniting, that shooting out of a crystal here, or disappearance of a limb there, which gives the idea of natural growth in a French kingdom, while it makes it difficult to say just where the growth took permanent shape. Our States, we might almost say, came into the world full grown, like Minerva. Even the Massachusetts towns, the accepted exemplars of their class, found their Commonwealth boundaries waiting for them when they came into existence, and conformed to them. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at...
