ERROR REPRESENTATION IN TIME FOR COMPRESSIBLE FLOW CALCULATIONS

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 46 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. Time plays an essential role in most real world fluid mechanics problems, e. g. turbulence, combustion, acoustic noise, moving geometries, blast waves, etc. Time dependent calculations now dominate the computational landscape at the various NASA Research Centers but the accuracy of these computations is often not well understood. In this presentation, we investigate error representation (and error control) for time-periodic problems...

Reviews

This publication is really gripping and fascinating. It is among the most amazing ebook i have study. I am just quickly could possibly get a satisfaction of looking at a written ebook.

-- **Dr. Earl Harber**

This ebook will not be easy to get started on looking at but very exciting to learn. It can be rally interesting throgh looking at period. Its been written in an exceptionally basic way and it is merely following i finished reading this pdf in which in fact transformed me, alter the way i really believe.

-- **Mr. Chesley Weissnat DVM**

Very beneficial for all type of people. It really is loaded with knowledge and wisdom It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Roxane Hagenes**
