Saunders, 2014. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: Part of the popular LPN Threads series, *Introduction to Maternity and Pediatric Nursing* provides a solid foundation in obstetrics and pediatric nursing. An easy-to-follow organization by developmental stages, discussions of disorders by body system from simple-to-complex and health-to-illness, and a focus on family health make it a complete guide to caring for maternity and pediatric patients. Written in a clear, concise style by Gloria Leifer, MA, RN, CNE, this edition contains newly updated NCLEX exam-style review questions and unfolding case studies, along with additional material on bioterrorism and disasters, safety, health promotion, nutrition, and related psychosocial care. Step-by-step procedure lists throughout the text help you master important maternity and pediatric nursing processes with Skills Performance Checklists available on the Evolve website. Nursing Care Plans with Critical Thinking Questions reinforce the nursing process and strengthen problem-solving skills as applied to maternity nursing. Logical organization of content from simple-to-complex and health-to-illness makes locating and accessing information easy. Key terms with phonetic pronunciations and text page references help improve terminology and language skills of English-as-a-Second-Language (ESL) students and students with limited proficiency in English, before they enter clinical practice. Health Promotion boxes emphasize the importance of family-centered care, health promotion and illness prevention, women's health issues, and growth and development of child and parent to help you understand and teach wellness and disease prevention to patients in your care. Nutrition content highlights the importance of proper nutrition for women before, during, and after pregnancy (for those who are breastfeeding),...
