## NEW METHODS OF FOOD PRESERVATION

Book Condition: New. Publisher/Verlag: Springer, Berlin | The major techniques employed for food preservation have a long history of use. They include chilling; freezing; drying; curing; canning; fermenting or otherwise acidifying; the addition of preservatives; heat pasteurisation and sterilisation. Newer techniques more-or-less derived from these traditional procedures include the successful application of combinations of preservation or 'hurdle' methods, vacuum- and modified atmosphere-packaging, and continuous sterilisation coupled to aseptic packaging. More innovative techniques, such as the use of ionising radiation,...

### Reviews

*I actually started off reading this article ebook. It is written in simple phrases instead of hard to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.*
