Dept. of Energy, Office of Energy Efficiency and Renewable Energy, 2010. Excerpt: . . . Problem-Based Learning Appendix D: Benefits of PBL By using the Problem-Based Learning method, students gain more than just knowledge of facts. They develop critical thinking skills while working in collaborative groups to try to solve a problem. In doing this, they learn how to: interpret the question problem, develop a problem statement, conduct research, reevaluating prior knowledge as new knowledge is gained, determine possible solutions, and pick the best possible solution based on the information they have gathered. By providing immediate student feedback, the students can continually readjust their thinking, correcting any misconceptions or errors before moving on. By using PBL, students become more familiar with real-world problems. They learn that there is not always only one correct answer, and that they need to work together to gather enough information to determine the best solution. The PBL Classroom When using the PBL model of instruction, it is best for students to work in small...
