*A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.*

## TEACHERS VERSUS THE PUBLIC: WHAT AMERICANS THINK ABOUT SCHOOLS AND HOW TO FIX THEM

Brookings Institution. Paperback. Book Condition: new. BRAND NEW, Teachers versus the Public: What Americans Think About Schools and How to Fix Them, Paul E. Peterson, Michael Henderson, Martin R. West, A comprehensive exploration of 21st Century school politics, Teachers versus the Public offers the first comparison of the education policy views of both teachers and the public as a whole, and reveals a deep, broad divide between the opinions held by citizens and those who teach in the public schools. Among the findings: Divisions between teachers and the public are wider and deeper than differences between other groups often thought to contest school policy, such as Republicans and Democrats, the young and the old, the rich and the poor, or African Americans and whites. Public support for school vouchers for all students, charter schools, and parent trigger laws increases sharply when people are informed of the national ranking of student performance in their local school district. Public willingness to give local schools high marks, its readiness to support higher spending levels, and its support for teacher unions all decline when the public learns the national ranking of their local schools. On most issues, teacher opinion does not change in response to new information nearly as much as it does for the public as a whole. In fact, the gap between what teachers and the public think about school reform grows even wider when both teachers and the public are given more information about current school performance, current expenditure levels, and current teacher pay. The book provides the first experimental study of public and teacher opinion. Using a recently developed research strategy, the...
