They have to do with the laws governing production, and with the principles regulating supply and demand; and they are directly dependent upon a due determining of the proper functions of legislation, and of the relations which legislation, having for its end the welfare of the community as a whole, ought to bear towards production and trade. As students of economic science, we recognize the fact that, in all its phases, it is in reality based upon two or three very simple propositions, such as: Two plus two make four. Two from one you cant. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work.
